

# TORANA GTR. GO FIRE YOUR IMAGINATION

There's only one word for it, and that's . . . incredible. Torana GTR from the same stable as the XU-1, the Australian motor sport champ. With muscle-flexing, mind-bending '3300' Holden engine pouring out 135 hp. And 194 lbs/ft. gross torque at 2000 rpm plus other performance features like these:— all-synchro floor-mounted 4-speed box for fast, positive changes; low-impedance air cleaner, power assisted front discs, direct 16.5:1 ratio rack and pinion steering, front stabilizer bar, extra wide 5.50 JJ x 13 rally wheels with double hump safety rims, full instrumentation, fat B 70 red-band high performance tyres . . . get the message?

GTR is a champ in the comfort department, too, with high-back deep foam front bucket seats, now with adjustable head restraints and moulded seat pads for even greater lateral support. Deep pile carpet, heating/demisting, talk-starting vinyl or optional nylon cloth trim in colours to match your movin' mood. Outside, you're looking good, with Torana trend-setting style, chrome wheel trims and colours that put the rest in the shade. There's a fire down below. GTR will light it for you.
